

On removing k-love radio station:

I believe that k-love not only helps me spiritually, but emotionally as well. It really gives me a peaceful feeling listening to the station and throughout the whole day.

The effect on the community if k-love were displaced: It would hurt the community as there are 1000's of listeners in my region that receive the message that is being sent by k-love. It would also hurt the Christian cause by being removed, which is essential for the community to stay united.

Public interest: This is one of very few Christian stations available. I think that listening to the radio is a choice and if k-love was not on the air, several 1000 people would not listen to the radio.

Thank you for your time, Tom
